FOR IMMEDIATE RELEASE (12/8/2014)

Bio-Kleen Introduces RV Roof Cleaner & Protectant

Aims to Make RV Roof Cleaning and Protection Easy and Efficient

Kalamazoo, MI – Cleaning a rubber RV roof has proven a necessary, yet difficult and time consuming job for RV owners. One producer of RV cleaning products aims to make this process easier and more efficient. Bio-Kleen, manufacturer of biodegradable cleaning products, has added [RV Roof Cleaner & Protectant](#) to their Marine/RV/Auto line of cleaning products.

Bio-Kleen's RV Roof Cleaner & Protectant helps RV owners save time by cleaning and protecting their roofs in just one step. It also maximizes the life of RV rubber roofs with the superior protection it provides. This new addition for Bio-Kleen includes an SPF 70 UV blocker that will adhere to the surface and provide up to 6 months of protection against UV rays, chalking, streaking, and deterioration. While cleaning this product removes black streaks, oxidation, and general build-up that can become damaging to RV roofs if left unattended. With the high expense of a new roof, the costly repairs, and of course the threat of a leak during a rain storm and the interior damage that follows, properly cleaning and protecting your RV roof should be one of the most important maintenance steps taken.

RVers know you can't use just any cleaning product for your rubber rv roof. Which is why Bio-Kleen has produced RV Roof Cleaner & Protectant petroleum-free, containing no solvents, distillates, citrus products or harsh abrasives. And of course coming from Bio-Kleen the product is environmentally friendly, non-toxic, biodegradable and non-aerosol. RV Roof Cleaner & Protectant is safe for EPDM, PVC, TPO, and most RV roof surfaces. It's available in 32oz for a retail cost of \$16.95, 1 Gallon for \$34.95, it can be diluted per application and larger bulk sizes will be available in the future.

Bio-Kleen Products, Inc. has produced American made, biodegradable cleaning products since 1987: guaranteed to outperform leading brands and help maintain a clean, healthy and sustainable lifestyle. Bio-Kleen manufactures a complete line of [RV cleaning](#) products tested and proven successful for cleaning and maintenance of your RV, camper, motorhome, pop-up, fifth-wheel, or motorcoach. In addition to RV cleaners, Bio-Kleen makes environmentally friendly cleaning products for the marine, snowmobile, motorcycle, household, automotive, and commercial industries; allowing them to service just about any kind of application you may have.
