FOR IMMEDIATE RELEASE (2/13/2013)

Bio-Kleen Sponsor Professional Bass Angler Jonathan VanDam

Kalamazoo Natives Bio-Kleen Boat Cleaners Support Professional Bass Fisherman JVD

Kalamazoo, MI – **Bio-Kleen**, manufacturer of [biodegradable boat cleaners](#), is sponsoring professional bass angler **Jonathan VanDam** for the 2013 season. Jonathan, or JVD as many know him, is competing in the Bassmaster Elite Series and has qualified for his 1st Bassmaster Classic in 2013 by winning the 2012 Bassmaster Elite Series Green Bay. This win made Jonathan the second youngest ever to win a Bassmaster Elite Series title with only his second season on the Elite tour.

Jonathan has grown up with fishing being the nephew of 7 time angler of the year and 4 time Bassmaster Classic champion Kevin VanDam and working at the family owned D&R Sports Center outdoors and tackle shop in his hometown of Kalamazoo, Michigan.

Jonathan is also no stranger to Bio-Kleen Products, with Bio-Kleen being a Kalamazoo, Michigan based company and D&R Sports Center selling and using their boat cleaning products for years.

“I’m very excited about teaming up with Bio-Kleen. Not only do they have the best cleaning products on the market but they also share my passion for the outdoors with environmentally friendly products,” said VanDam.

“We are happy to be supporting Jonathan this season. He and his family are very familiar with our marine cleaners and have been using and retailing the products for years. He knows the products well and can share his personal experiences with his fans and other fisherman,” said Bio-Kleen President, Tim Kowalski.

Bio-Kleen Products, Inc. are American made, biodegradable cleaning products since 1987: guaranteed to outperform and help maintain a clean, healthy and sustainable lifestyle. Bio-Kleen manufactures a complete line of boat cleaning products for cleaning, detailing and protection for the entire boat, trailer and accessories. In addition to marine cleaners, Bio-Kleen makes environmentally friendly cleaning products for the RV, snowmobile, motorcycle, household, automotive, and commercial industries; allowing them to service just about any kind of application you may have.
