FOR IMMEDIATE RELEASE: (6/3/2008)

**MARINAS, BOATERS: HULL CLEANER, SAFE ALTERNATIVE
Quick Hull Cleaning Gets Safe: For the User and the Water**

Marinas and boat detailers need strong cleaning products that work fast. This has become particularly important when removing build-up from the exterior of boat hulls; especially during the spring clean-up and fall pull out when most marinas get boats ready for the water or for storage. Traditionally, because of the severity of this build-up and for time-saving efficiency, businesses and boaters have resorted to using extremely un-safe, toxic chemicals and acids during the cleaning process; chemicals such as these can be extremely dangerous for the user and requires a respirator and protective gear.

Now there is a safer alternative that is just as effective, [BIO-KLEEN HULL KLEEN](#) is an environmentally safe, commercial strength, fast acting fiberglass hull cleaner that quickly removes the waterline, algae, lime, scale, rust, scum, and chalking with very little effort. BIO-KLEEN HULL-KLEEN is designed as an aggressive, one step, spray-on, spray-off cleaner that dissolves deposits and gives you the best economy when pulling boats out for storage and detailing. Marinas and detailing businesses looking for a safe, non-toxic, biodegradable alternative to harsh acids and chemicals will be extremely impressed with this product. Not only is it effective and non-toxic, but it is aromatic, emitting no harsh fumes or burns. A quart bottle retails for \$9.95, 1 gallon for \$19.95, 5 gallon \$80.00 and is available on www.biokleen.com. It is also available in 55 gallon drums as well, email info@biokleen.com or call 800.240.5536 for a quote.

Bio-Kleen Products, Inc. has been an American made business and serving the marine industry for over twenty one years. In addition to marine cleaners, Bio-Kleen makes earth-friendly, biodegradable, non-toxic, non-aerosol products for the RV, snowmobile, motorcycle, household, automotive, and commercial industries; allowing them to service just about any kind of application you may have. All products are backed with a 30-day money back guarantee and they offer free technical advice to help walk you through your cleaning applications.
